

# Goofy

## Information

I first discovered this oddball font on the cover of Aaliyah's debut album and traced it back to a free font from the 90s called Cuckoo (author unknown). In fact, it turned out to be a crude digital version of a typeface from the phototype era – Global by Aldo Novarese (Visual Graphics Corporation, 1978). Thanks to Grant Hutchinson I was able to get a scan of the original sample from the VGC 1988 catalogue and interpret it from there.
